Dear First and Second Grade Parents,

When we were gathering information for our Middle States Reaccreditation an area of need became apparent. With all the extracurricular activities we have here at BCS, there are few that are both academic and younger student oriented.

Researching what we could do, we found the "Engineering is Elementary" program. Sessions have been offered by Kids Innovation Playground, who has been presenting these after school activities in surrounding areas.

After talking with the instructor, we feel this would be a way of meeting this need. We would begin with the "Bubble Bonanza: Engineering Bubble Wands" for our students in Grades one and two. There will be six weekly lessons here at Butler Catholic School beginning on Tuesday, October 15, 2019. Children will be dismissed at 4 PM. There is a \$30 fee for this class to cover materials and instructor fees. The maximum number we can have is 20 students.

If you are interested in having your child participate in this program, please complete the attached form and return it to the School Office along with your \$30 payment. Please make checks payable to Butler Catholic School and return to the School Office by Wednesday, October 9, 2019.

We are hoping that you find this to be an exciting and worthwhile endeavor so that we can continue to expand the offerings to our younger students.

Sincerely,

Sister John Ann
