

Engineering Bubble Wands!

1st and 2nd Grade Students—Oct 15 to Nov 19, 2019

Do you love bubbles? Do you want to learn how to make all kinds of bubbles and bubble wands? BCS has partnered with Kids Innovation Playground to offer a great after-school program to 1st and 2nd graders at our school: Engineering Bubble Wands. This program will be six sessions long, held on Tuesdays after school from October 15th through November 19th. Here's a sneak preview of what Engineering Bubble Wands is all about: *"Jacob and India are in California, and they get to help create a stage show about bubbles for an amusement park! Kids will explore how bubbles behave and will investigate the properties of different materials as they engineer all kinds of bubble wands. The unit wraps up with a Bubble Bonanza Showcase where kids demonstrate their creations."*

On November 26th we will have a special afternoon assembly in the School Gym for the Bubble Bonanza Showcase. Our "bubble engineers" will show off their wands and all of the bubbles that they can create! Parents will be invited to attend this fun showcase.

Program Details:

Dates: Tuesdays from October 15th through November 19th

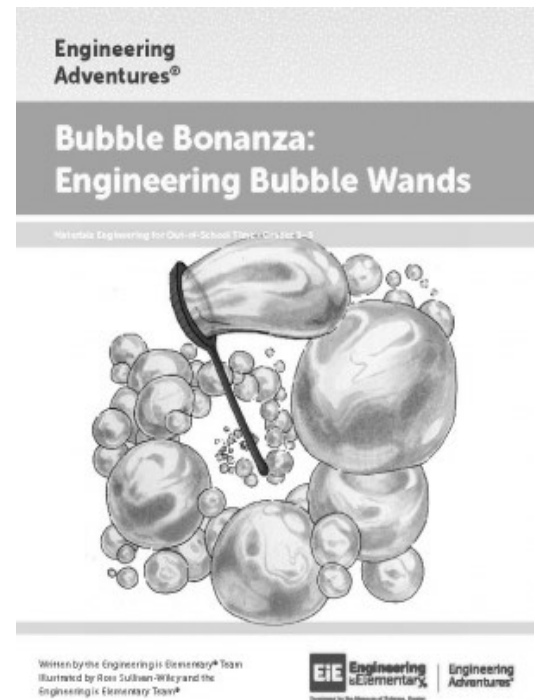

Time: 2:45 PM to 4:00 PM

Cost: \$30 per student. This covers instruction and all supplies.

***We are in need of several parents to be helpers for these sessions. If you are interested in helping at the six Tuesday sessions (must be able to help at all six) please indicate that on the form below. Parent helpers will receive a \$10 discount on their child's registration fee.*

All parent helpers must have ALL of their CLEARANCES.

To register your child for this program, please return the form below with your payment (checks made payable to Butler Catholic School) BY OCTOBER 9, 2019 to the School Office.
